## NeoCast™ Urethane Edge Tops

These durable tops have a tough laminate surface with a resilient edge that is perfect for any high-traffic environment. Their bonded edge construction means there are no areas to collect food or bacteria. The bumper edge can take a beating and won't harm your chairs.

NeoCast™ Tops have a high-pressure laminate surface that is bonded to a 1-1/8" particleboard core with a backer sheet for stability. Their cast urethane edges can be produced in a variety of standard or custom colors (p.146). Choose from Wilsonart®, Formica®, Pionite®, Nevamar®, or Graphic Laminates.

 Laminate tops can use OpenStudio™ or Graphic Laminate with customer or FurnitureLab™ supplied graphics or logos (p.86-117)

 Urethane edges are made with 65% vegetable oil (a rapidly renewable resource), all Standard, OpenStudio™ and Graphic Laminates are GreenGuard® certified, substrate made with 100% recycled wood fiber, FSC certified and formaldehyde-free substrate available
