

Confab Community Table Series

Confab was crafted with connection and collaboration in mind. The steel-beam construction supports a laminate top and a tough matching PVC edge. 3" thick laminate panel legs are available in 3 heights. Confab's interior can be lined in your choice of black or white melamine laminate. Whether you're working, lunching, or catching up on the latest streaming show with your favorite people, Confab provides the perfect spot to gather.
