

EverCore Solid Surface Tops

Solid surface is infinitely renewable, recyclable, and easy to refinish or repair.

The unique seamless construction requires no applied edge. EverCore's acrylic content resists moisture and prevents accumulation of food debris or bacteria.

Can be made with most market solid surface offerings, including Samsung Staron®, Formica® Solid Surface, Corian®, LG HI-MACS®, Hanex® and Avonite®. With a 1-1/2" built-up edge profile, all tops have a 3/4" plywood blank bonded to the underside to attach any size pedestal base.

Note: FurnitureLab cannot manufacture concrete, natural stone, engineered stone, terrazzo, nor quartz products.
